

❖ Assignment 2-

1) Which field of the Customers table is the primary key?

⇒ Cnum is the primary key of customers table.

2) What is the 4th column of the Customers table?

⇒ Rating is the 4th column of the Customers table.

3) What is another word for row? For column?

⇒ Row -> Record, Entry, Tuple

Column -> Field, Attribute, Data point

4) Why isn't it possible to see the first five rows of a table?

⇒ In a Relational Database Management

System there is no such thing as a first or last row in a table. The SQL language explicitly states that any RDBMS is free to return data in any order that is convenient unless the query contains an ORDER BY clause which then defines the order of returned rows.
